

# Milford Eagle Marching Band

## Food Allergy / Vegetarian Form

The Milford Band Boosters provide dinner to marching band members on 12 hour band camp days, at local contests, and at Bands of America competitions. We want to keep your student safe and are asking that you please provide us with information on any food allergies your child has. We have some students in our organization who are vegetarians, if that is the case, we need to know this as well to meet their needs. Please fill out the form and return it with your marching band registration forms.
